

BLEED MARGIN

Elements that go to the edge should extend to the bleed line.

SAFE AREA

All important elements like text should stay within the safe area.

TRIM LINE

Where the piece is cut to size.

CMYK color and 300 DPI resolution recommended.
Turn off or delete the guides layer before submitting.
Export your document as a PDF with images and fonts embedded.
You can also use our PDF presets file under the templates tab
on our website to easily create a print ready PDF.

Prinveo is not responsible for guides layer left in customers document.

prinveo
on time. on target. on demand.

PLEASE NOTE: All artwork needs to be reversed when selecting viewed from "Behind Glass" so that you can have the cling affixed to the inside of a window or other glass surface and viewable from the outside.

All artwork needs to be right reading when selecting viewed from the "Front of the Glass" so that the cling is viewable from the side it is placed on.
